- **Cloud & Platforms:** AWS, Netlify, GCP, Ethereum, Cloudflare.
- **Soft Skills:** Critical Thinking, Collaboration, Time Management, Adaptability.

## WORK HISTORY

### FinTech Engineer Intern

June 2023 - April 2024

#### Intellect Design Arena Limited - Chennai, India

- Developed and integrated REST and SOAP APIs, improving response times by 20%.
- Enhanced user interfaces, boosting user satisfaction by 15%.
- Diagnosed and resolved critical bugs across DIT and SIT phases, improving deployment success rates by 25%.
- Coordinated with cross-functional teams to ensure on-time and in-full project delivery, improving overall project efficiency by 10%.

### Intern

May 2023 - June 2023

#### ShipTurtle Apps Private Limited - Ahmedabad, India (Remote)

- Built and optimised Shopify features, resulting in a 15% performance improvement.

- Streamlined GitLab version control workflows, reducing code deployment time by 25%.
- Tracked and fixed bugs across multiple releases, reducing customer complaints by 20%.

## EDUCATION

**Marwadi University, Rajkot, India**

May 2024

**Bachelor of Technology** | Information Technology

CGPA: 8.82 / 10

## PROJECTS

### **234Ledger**

November 2024 - Present

<https://234ledger.com.ng>

- Engineered a robust platform for aggregating and presenting Nigeria's trending news, organised by day, week, month, and year across various categories and topics.
- Optimised site performance and search engine visibility by implementing SSR using Angular 16 and Express.js, hosting on a Google's compute engine instance behind Cloudflare's DNS and proxy, improving both load time and SEO.
- Streamlined content delivery, offering users access to verified news and trends in one place, minimising data consumption and saving time spent searching across multiple sources.
- Enhanced user engagement by integrating a light/dark theme switcher, NGX Translate for accessibility, and customizable topic preferences for a personalised news experience.

### **234Ledger Admin Panel**

November 2024 - Present

<https://nimda.234ledger.com.ng>

- Responsibly use username "demoacc" and password "Axim04\$\$" to gain read-only access.
- Built a modular admin panel to manage content, users, and analytics for the 234Ledger platform, with role-based access controls for secure management.
- Developed with Angular 18, JWT, Express.js and MySQL for a responsive, intuitive interface for easy content management.
- Increased operational efficiency by 60%, reducing manual tasks while ensuring seamless content management.

### **Anola**

November 2023 - Present

<https://anola.234ledger.com.ng> || <https://anola.online>

- Created an anonymous communication platform using Node.js, Angular, Express, JWT, NGX Translate, and Socket.io.
- Implemented real-time chat and intuitive inbox management features, serving 200+ active users daily.

### **Torque Modern Portfolio**

January 2024 - Present

<https://jtorque.online>

- Built a minimalist developer portfolio showcasing projects and skills to potential employers and clients.

### **Inventory Management System**

January 2023 - Present

<https://github.com/benmash12/ims>

- Designed and implemented a .NET-based Windows app for inventory management, enhancing tracking efficiency by 40%.

### **Steppen Beats**

April 2021 - June 2022

<https://github.com/benmash12/steppenbeats>

- Engineered an e-commerce platform for selling beats with user, product, and order management.
- Enhanced checkout functionality and optimised audio playback, increasing conversion rates by 20%.
